# The I-Candeese

One of these babies is called and I-Cando, & like a goose is a goose in a gaggle of geese, as a family, they are called I-Candeese.

Or so they were, until folks kept insisting that their family name is *oh-so confusing!*

So I considered calling them “I-Canbees” (*a single one being an I-Canbe*) which makes perfect sense, naturally, especially as it’s better to just BE the pure being we are each designed to be (*as every one of these “I-Candeese” represents of that wholeness, a component*).

Far better to BE it than simply DO it, since by BEing it, you’ll do it anyway.  
(*But there is something so charming about “I-Candeese” I’m not quite ready to let the name go.*)  
There is added confusion or perhaps it’s a good thing, that one I-Cando/I-Canbe who’s just been birthed (digitally) goes by the name JesBe<sup>e</sup> (*see above*)  
*Something to add to the mix as I ponder. If you’re inspired to suggest, please give it a gander!*

## Ki-2 & SwanPhoenix

Since these two babies came to me after the original 6, they're not in the picture on the preceding page. I give them to you here. (I'm sure you can tell which is which.. Both can be found on the cover picture which you might call a family portrait.)
